

CW118

CW118 is a powerful reflex loaded subwoofer, compact cabinet design provides a deep and fast bass.

CW subwoofers are designed to fit unobtrusively into any install environment and even feature the same flying point principles used on the top boxes. CW118 is a perfect subwoofer solution for CM8, CM9, CM10 & CM12 in the CM Series.

The distinct new CW118 is ideal for medium-sized applications that require a good clean bass reproduction.
